THE DISTINGUISHED VISITORS Spend the Day in Wichita and take Away Good Impressions.

Yesterday in response to the city's invitation, Governor Hovey of Indiana, and staff spent the day in Wichita. The party did not arrive until near 11 o'clock owing to unavoidable delays. The Mayor and a large delegation of citizens met them at the Santa Fe depot and first drove them to the packing houses. From here they took a drive through the northern residence portion of the city finally coming out at Eighteenth and Waco, thence south on Waco to Thirteenth street when they went over into Riverside. From here they returned to the hotel to dinner. After dinner they paid a visit to the Garfield university and the handsome residences of the West Side, returning to the board of trade rooms. Here were displayed the richest products of the state which would rival the most fertile sections of America and could not fail to produce a lasting impression on the minds of the visitors.

In the evening a reception was held at the parlors of the Hotel Carey, where the ual civilities were interchanged and the party took leave of their entertainers.
